EUREKA METAL & GLASS

Designing the way to success

PROFILE

Eureka Metal & Glass Services, Inc. is one of Philadelphia's premier commercial glazing sub-contractors. Having been in business for over fifty years, we continue to build upon our reputation of success. We are committed to building relationships of trust and integrity with our clients that allow us to utilize our expertise and professionalism throughout every stage of our clients' projects. From concept to completion, we are focused on one goal: provide high quality, on-time glass and glazing installations in a cost-effective way with particular attention to the client's schedule.

HISTORY

Eureka Metal & Glass was created in the early fifties as Eureka Glass Works, Inc., a commercial glass installation sub-contracting firm. In the sixties, Eureka started fabricating and installing aluminum frames and doors. Throughout the seventies, Eureka continued to establish its repertoire throughout Philadelphia and much of the Delaware Valley. Then in 1980, the management torch was passed down the family lines and Eureka saw continued growth and prosperity. In 1995 Eureka purchased the assets of Glass Services Unlimited.
